

Daily Visual Checklist

Use the checklist below to help keep your family organized and help make mornings smoother. We prepared a general checklist below or use the graphics on the second page to create your own checklist that's unique to your child. We recommend laminating the checklist and graphic tiles for durability. If you'd like your pieces to be interchangeable each day, add velcro to each of the graphic tiles as well as the checklist. Use a washable marker to check off items as you gather them for the day.

What do I need today?

Cut out the checklist as well as the graphic tiles that meet your family's needs. You can glue the images to the checklist or add velcro so they are interchangeable. Use the blank tiles to add photos of any additional items your child may need. Consider laminating all the pieces for added durability.
