

BUILD AN IGLOO INSTRUCTIONS

Mission

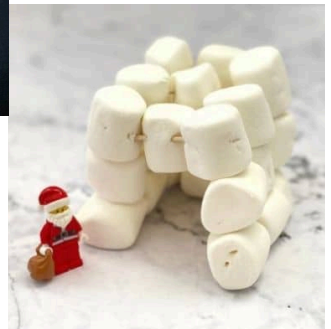

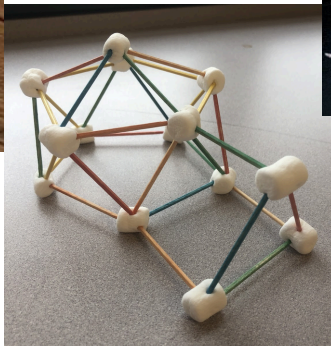

As a winter scientist, you have been selected to explore the great wonders of the Arctic! However, night has fallen and you must build your own fortress for the night. Using only the materials below, create an igloo that will provide shelter for the night and be able to withstand the cold Arctic winds.

Materials

- marshmallows (blocks of ice)
- toothpicks (beams)
- Igloo challenge planning sheet (page 2)

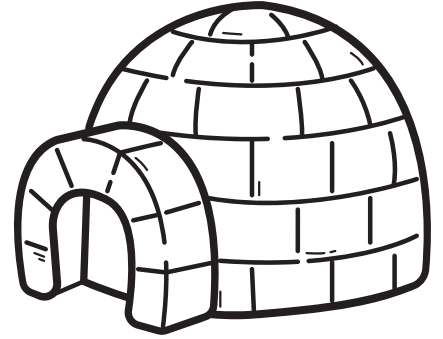

Igloo Examples:

I G L O O

challenge

Brainstorm! What is the goal? Draw out your plans and ideas for your igloo below.
