

Morning Routine Visual

Print out all the pages below. Cut out the pictures that are most accurate to your child's morning routine. Once you have all the images cut out, determine the preferred order of the morning routine. Glue the images in order from left to right on the final page. Once your morning routine visual is complete you can choose to frame it, laminate it or put it in a page protector. Use a dry erase marker to check off each item on the schedule once it's been completed. Afterwards, wipe it clean to be ready for the next day. Encourage your child to help with creating the visual to build engagement and excitement!

Make bed

**Eat
breakfast**

**Get
dressed**

**Get
dressed**

**Brush
teeth**

Brush Hair

Comb Hair

Pack lunch

**Take
Medication**

**Put on
glasses**

**Put in
hearing
aids**

**Do a
mindfulness
activity**

**Get in
wheelchair**

**Leave
the
house**

**Get AAC
device**

**Get
walker**

**Put on
cochlear
implant**

**Get
backpack
ready**

**Put
braces on**

**Get
crutches**
